

TILT UP CONCRETE TRADE CERTIFICATION

For certification of reinforcing steel placement within the Tilt Up Concrete Panels, in accordance with FBC Building 8th Edition (2023), Section 110.3.9 and compliance with Manatee County Building Department requirements, the Contractor of Record shall require a third party entity to submit an affidavit on letterhead stationary signed and sealed by an Architect or Engineer registered in the State of Florida stating the following:

I _____ an _____
Print Name **Architect or Engineer**

licensed and registered in the State of Florida, license # _____

or my duly authorized representative has inspected the placement of the reinforcing steel in the Tilt Up Concrete Panels at:

Address _____ **Permit No.** _____

and hereby certify that all reinforcing steel designated for the Tilt Up Concrete panels has been installed in accordance with the sealed plans and specifications. The certification shall further list by name and effective date those plans and specification used for the placement of the reinforcing steel.

A hold on the issuance of the Certificate of Occupancy will be placed on this permit until the above referenced signed and sealed certification has been submitted and accepted by the Manatee County Building Official and the referenced documents therein have been submitted for the record.

Acknowledged and signed at the time of permit issuance by:

Contractor of Record _____ **License #** _____

Date: _____ **Signature:** _____
