B(2). When Certificates of Occupancy have been issued for 4,500 residential units, or the equivalent thereof in terms of net new external p.m. peak hour project trips, an biennial monitoring program to provide peak hour counts at the Project\* entrances shall be instituted to verify that the projected number of external trips for the Project\* are not exceeded. Counts shall continue on an biennial basis through buildout. This information shall be supplied in the required Biennial Report. If the Biennial Report indicates the total trips exceed projected counts by more than 15%, Manatee County shall conduct a Substantial Deviation Determination pursuant to Subsection 380.06(19), Florida Statutes and may amend the Development Order to change or require additional roadway improvements. If an Biennial Report is not submitted within thirty (30) days of its due date, Manatee County may conduct a Substantial Deviation Determination pursuant to Subsection 380.06(19), Florida Statutes and may amend the Development Order to change or require additional roadway improvements. The results of the study may also serve as a basis for the Developer\* or reviewing agencies to request Development Order amendments. Such a variance shall be presumed to be a substantial deviation unless the developer rebuts this presumption by clear and convincing evidence. If the variance is determined to be a Substantial Deviation, the revised transportation analysis required pursuant to Subsection 380.06(19), Florida Statutes shall be based upon results of the monitoring program and agreements reached at another transportation methodology meeting to be held prior to the preparation of the new analysis. [Transportation mitigation has been completed for the approved development for both Phase I and Phase II through build-out. Therefore, monitoring is no longer required.]

B(3). [The provisions of this Section B(3) have been supplanted by the LDA.]

The TSM program shall include a biennial assessment of the actual achievement of vehicle trips diverted from the peak hour as a result of the TSM measures. This assessment shall also include sufficient and appropriate documentation for all diversions claimed as a result of the TSM measures. Results of the TSM program shall be included in the Biennial Report.

The TSM program shall seek to implement and will be measured by the TSM objectives and policies set forth in the Florida Transportation Plan and shall include, but shall not be limited to:

B(4). Prior to the first Final Plat, or Certificate of Occupancy if platting is not required, the developer shall dedicate right-of-way along its entire frontage to accommodate the future six laning of State Road 64. (Completed) The Developer or its assignees shall be entitled to receive full transportation impact fee credit for the dedication as defined in Table 2. (Completed) The construction of model homes and the sales center shall be exempt from this condition if the Developer\* does not have title to the property to be dedicated at the time a Final Plat or Certificate of Occupancy is issued for model homes or the sales center.

B(5). Prior to commencement of Phase II, the developer shall dedicate 100 feet of right-of-way and construct Port Harbour Parkway as a two-lane thoroughfare roadway, including sidewalks, bike lanes, appropriate intersection improvements and associated retention, from its I-75 terminus to the eastern boundary of the original 2,485 acre tract. (Completed)

For that portion of Port Harbour Parkway planned through Parcel 35, the Developer\* shall dedicate the necessary remaining right-of-way to achieve a total width of 105 feet for the eastern most 500 foot segment and 100 feet for the remaining segment, prior to the first Final Plat approval in Parcel 35. [The provisions of this Section B(5) have been supplanted by the LDA.]

This segment of Port Harbour Parkway shall be completed as a two lane divided roadway (outer lanes) with bike lanes and a sidewalk and include the ultimate configuration of Port Harbour Parkway at the intersection of Upper Manatee River Road as set forth in Stipulation in B(8). Temporary striping shall be utilized until the full intersection improvements are made by the county.

B(6). The developer shall provide easement(s) to Manatee County to allow for attenuation and treatment of all stormwater from the planned build-out conditions (6-lane thoroughfare roadway with intersection improvements and sidewalks) for half of Upper Manatee River Road. A Drainage, Maintenance, and Access Easement shall also be provided to Manatee County for conveyance of stormwater from Upper Manatee River Road to the stormwater pond. The Drainage-Maintenance Access Easement shall be on clear and level ground and free of obstructions, including any landscaping in addition to the roadway buffer. Manatee County shall be responsible for the construction of the drainage conveyance improvements, the restoration of the roadway buffer and the maintenance of the free flow of the drainage conveyance. The pond within the stormwater easement shall not be a bonded improvement. Prior to Final Plat approval for the first plat abutting Upper Manatee River Road, the easements shall be approved by the Property Management Department and recorded in the Public Records and the developer shall submit to the Public Works Department the SWFWMD approval letter demonstrating that the approved stormwater pond has been designed with the capacity to accommodate the drainage for the build-out of Port Harbour Parkway as described above. Completion of the above improvements by Manatee County shall not require any further authorization from the developer or Home Owners Association. [The provisions of this Section B(6) have been supplanted by the LDA.]

B (7) The original development order provided for construction of a frontage/access road to the Timberlane RV Park. In lieu of this frontage/access road the developer shall provide the following alternative:

1. Once S.R. 64 construction begins, the contractor shall maintain safe access to Timberlane RV Park pursuant to FDOT rules. Once the right turn lane set forth in #1 below is constructed, the right turn deceleration lane shall be maintained during construction, while the existing SR 64 pavement is being utilized for traffic.
2. The alternative access through Heritage Harbour will be as indicated on Map A, entitled Timberlane Access.
3. Alternative access through Heritage Harbour shall be facilitated with signage agreed to by Lennar Homes, LLC and Timberlane, in conformance to FDOT and Manatee County sign regulations. (Note: Guidance signs will not be permitted on FDOT R.O.W.)
4. Timberlane shall provide a letter to FDOT indicating their satisfaction with alternative proposed. (Completed)
5. If this alternative is selected, Lennar Homes, LLC shall be responsible for the costs it has incurred to date associated with the construction of the frontage road. Any legally recognizable costs of the adjacent property owner (Musgrave) which are the result of the County's use of eminent domain, shall be the County's responsibility.

As part of this alternative, Timberlane RV will be responsible for the following prior to their Certificate of Occupancy:

1. A right-turn deceleration lane with a 12-foot lane for 100-feet and a 200-foot taper shall be in place on SR 64 prior to the opening of the Timberlane RV Park.
  2. The deceleration lane shall be built according to the appropriate FDOT standards and shall be approved by FDOT and Manatee County.
  3. Timberlane shall provide visitors information relative to traffic circulation. . [The Developer has complied with the above obligations and the requirements are no longer necessary as State Road 64 construction has been completed]
- B(8). The County has identified the construction of Port Harbour Parkway from its current terminus to the Upper Manatee River Road (or the alternative project as identified in #3 below) ("PFSM Project") as a benefit to a regionally significant transportation facility. Such construction will be in conformance with the provisions set forth below in this Section B(8) and will satisfy the mitigation requirements of Section 163.3180(12) Florida Statutes. [The provisions of this Section B(8) have been satisfied by the LDA.]
- a. Developer\* will enter into an agreement with the County in which the Developer\* will commit:
    1. to pay to the County its proportionate fair share mitigation "PFSM" for transportation impacts prior to the first Final Site Plan for any residential development in Phase II to assure construction of the PFSM Project. The PFSM has been calculated to be \$2,775,500.00;
    2. to dedicate to the County the right-of-way necessary to complete the construction of Port Harbour Parkway, and for Upper Manatee River Road as depicted on the General Development Plan at the request of the County and to waive impact fee credits for such right-of-way dedication;

3. to construct Port Harbour Parkway (the PFSM Project), the cost of which has been determined to be in excess of the PFSM, within 5 years of the approval date of this ordinance, utilizing funds from the PFSM payment to the County as well as additional contributions from the Developer; and
4. to post a bond or letter of credit in the amount of the difference between the PFSM and the costs of the construction of the PFSM Project, as estimated by Developer's engineer and approved by the County, securing such commitment, prior to the approval of the first Final Site Plan for any residential development in Phase II.

The effective date of the agreement will be approximately 45 days after execution to allow for statutory lag time (appeal period, etc.). If the developer transfers a substantial portion of the project to a contract purchaser, the contract purchaser shall also be a party to the agreement.

- b. Upon entering into the agreement, the Developer\* will be issued a Certificate of Level of Service ("CLOS") for Phase II. The CLOS shall allow Developer to proceed with construction of the commercial development of Phase II of the Project\* immediately and with construction of residential units in Phase II upon payment of the PFSM and posting of the bond or letter of credit, but no earlier than January 1, 2010 (except for model homes which may proceed immediately after entering into the agreement).
  - c. Initially, the PFSM Project identified for construction will be Port Harbour Parkway as set forth above. However, the County will retain the option to reprogram the Developer's contributions (PFSM payment and financial equivalent of commitment to complete Port Harbour Parkway) to another major project (possible SR 64 if it can be used to forward-fund state construction dollars).
  - d. In the event the County elects to use the PFSM for a project other than Port Harbour Parkway, Developer shall construct Port Harbour Parkway within one year of the Final Site Plan approval of the 1500<sup>th</sup> unit in Phase II. Prior to approval of the Final Site Plan for the 1500<sup>th</sup> unit in Phase II the Developer shall post security assuring such construction. Impact fees paid by Phase II of the development shall be earmarked by the County for such construction and shall be used for such construction.
  - e. The Developer will receive impact fee credits for 100% of the Developers PFSM payment and cost of construction of the PFSM Project, but will waive impact fee credits for the donation of right-of-way for Port Harbour Parkway.
- B(9). The developer shall provide easement(s) to Manatee County to allow for attenuation and treatment of all stormwater from the planned build-out conditions (4-lane thoroughfare roadway with intersection improvements and sidewalks) for both sides of Port Harbour Parkway. A Drainage, Maintenance, and Access Easement shall also be provided to Manatee County for conveyance of stormwater from Port Harbour Parkway to the stormwater pond. The Drainage-Maintenance Access Easement shall be on clear and level ground and free of obstructions, including any landscaping in addition to the roadway buffer. Manatee County shall be responsible for the construction of the drainage conveyance improvements, the restoration of the roadway buffer and the maintenance of the free flow of the drainage conveyance. The pond within the stormwater easement shall not be a bonded improvement. Prior to Final Plat approval for the first plat abutting Upper Manatee River Road, the easements shall be approved by the Property Management Department and recorded in the Public Records and the developer shall submit to the Public Works Department the SWFWMD approval letter

demonstrating that the approved stormwater pond has been designed with the capacity to accommodate the drainage for the build-out of Port Harbour Parkway as described above. Completion of the above improvements by Manatee County shall not require any further authorization from the developer or Home Owners Association. [The provisions of this Section B(9) have been supplanted by the LDA.]

#### **N. AFFORDABLE HOUSING**

- N.(1) An assessment of the potential affordable housing impacts of the Project was performed as part of this NOPC. The Developer\* recognizes that the statutory rules require an assessment of “affordable housing”, however the TBRPC and Manatee County recognize that the potential deficit is in the area of “essential worker” or “workforce” housing as such terms are defined by the TBRPC and the Manatee County Land Development Code, respectively. Lennar Homes LCC, per their agreement with the TBRPC, shall implement the following:
- a. 245 units shall qualify upon the first sale to an end user as workforce housing as defined by Manatee County Land Development Code. The sales price for such units shall be determined to qualify as workforce housing after excluding upgrades and options from the price. The maximum sales price for the workforce housing units shall be based upon current workforce sales price as

established by the methodology in the Manatee County Land Development Code and may be modified each year as determined by Manatee County.

- b. The Developer\* shall receive a 1:1 credit for all such qualifying units built within Phase I or II from January 1, 2004 to November 20,2024 (project build out).
- c. Should the Developer\* not provide the required number of affordable units, mitigation in the form of \$2,000 per affordable unit not built shall be paid into the Affordable Housing Trust Fund prior to Final Site Plan approval for the 1,500th residential unit in Phase II or last residential subphase, whichever comes first.

Prior to the first Final Site Plan approval for residential development, the developer shall deposit into an escrow account, post a letter of credit or bond, in a form acceptable to Manatee County, to secure the payment for the number of unbuilt units, in the amount of \$490,000. The escrowed funds shall be refunded to the developer or the bond or letter of credit released as each workforce unit is constructed.

- d. As a means to monitor the progress, the applicant shall provide an accounting of the number of units that have been provided to date in each Biennial Report. .  
**[Required units have been constructed in compliance with this condition. Condition is no longer applicable]**

- N.(2) Prior to the initiation of Phase II, the Developer\* shall conduct a reanalysis of affordable housing impacts in accordance with Section 380.06(6) and utilizing a methodology acceptable to the County\*and the State Land Planning Agency. (Completed)

Physical development of the Project\* has commenced. If any five year period shall expire without significant additional physical development activity on the site, the BOCC may conduct a public hearing in accordance with the Land Development Code after appropriate notice to the Developer\* and may, at its option, based on testimony presented at that hearing, rescind or suspend or take other appropriate action on any and all approvals granted herein except where the failure to carry out development is attributable to factors beyond the control of the Developer. For purposes of this provision, "physical development" shall be the actual construction of buildings or infrastructure by the Developer\* that is approved on a Final Site Plan or Plat for the Project\*.

## **SECTION 9. RESTRICTIONS ON DOWN-ZONING.**

Prior to the buildout date of this Development Order, the County shall not down-zone or reduce the intensity or unit density permitted by this Development Order, unless the County can demonstrate that:

1. substantial changes in the conditions underlying the approval of the Development Order have occurred; or
2. the Development Order was based upon substantially inaccurate information provided by the Developer; or
3. the change is clearly established by the County to be essential for the public health, safety, or welfare, or

Any down-zoning or reduction in intensity shall be effected only through the usual and customary procedures required by statute or ordinance for change in local land development regulations.

For purposes of this Development Order, the term "down-zone" shall refer only to changes in zoning, land use, or development regulations that decrease the development rights approved by this Development Order, and nothing in this paragraph shall be construed to prohibit legally enacted changes in zoning regulations which do not decrease the development rights granted to the Developer by this Development Order. The inclusion of this section is not to be construed as evidencing any present or foreseeable intent on the part of the County to down-zone or alter the density of the development, but is included to comply with Paragraph 380.06(15)(c)3, Florida Statutes.

## **SECTION 10. BINDING ORDER UPON DEVELOPER AND COUNTY.**

The Developer shall record a notice of adoption of this Development Order as required pursuant to Chapter 380.06, Florida Statutes, and shall furnish the Building and Development Services Department a copy of the recorded notice.

**SECTION 14. SEVERABILITY.**

It is the intent of this Development Order to comply with the requirements of all applicable law and constitutional requirements. If any provision or portion of this Development Order is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then such provision or portion shall be deemed null and void, but all remaining provisions and portions of this Development Order shall remain in full force and effect.

**SECTION 15. EFFECTIVE DATE.**

This Ordinance shall become effective upon filing of a certified copy with the Department of State; provided, however, that the filing of a notice of Appeal pursuant to Section 380.07, Florida Statutes shall suspend development authorization granted by this Development Order, until the resolution of said of appeal. However, this is not intended to suspend development previously authorized pursuant to Ordinance 00-19, as amended by Ordinance 03-25, Ordinance 08-33, Ordinance 10-37 and Ordinance 11-31, and Ordinance 14-37 during the pendency of any appeal.

<b>Multi Family (1 Unit)</b>	0.73 Unit	1.44 Units	---	1,272	1,908

Notes: (1) The above unit type exchange rates are based on the gross trip generation numbers as determined using the mostly recently approved Traffic Impact Statement for the Project (dated December 2009). Pursuant to such study, each Single Family Detached Unit generates 0.77 gross PM peak hour trip; each Single Family Attached Unit generates 0.39 gross PM peak hour trip; and each Multi-Family Unit generates 0.56 gross PM peak hour trip. Such generation rates are specific to this Project and are not generally applicable.

(2) Example: Upon surrendering 1 Single Family Detached Unit, the Developer would be able to add up to 1.97 Single Family Attached Units, 1.38 Multi-Family Units, or a pro rata combination thereof.
