MANATEE COUNTY ZONING ORDINANCE
PDMU-99-02(P)(R)
RIVER CLUB PARK OF COMMERCE, PHASES 2 & 5

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA, AMENDING ORDINANCE PDMU-99-02(P) TO ALLOW A MASTER SIGN PLAN FOR THE RIVER CLUB PARK OF COMMERCE; PROVIDING FOR SPECIFIC APPROVALS AS APPLICABLE; APPROVING A MASTER SIGN PLAN. RIVER CLUB PARK OF COMMERCE IS GENERALLY LOCATED EAST OF I-75, SOUTH OF STATE ROAD 70 AND NORTH OF LINGER LODGE ROAD (245.38 ± ACRES).

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA:

Section 1. Ordinance PDMU-99-02(P) is hereby amended regarding certain stipulations pertaining to revisions to the Master Sign Plan; with revisions for internal consistency. All stipulations not hereby amended by this ordinance shall remain in full force and effect as previously approved in PDMU-99-02(P).

Section 2. FINDINGS OF FACT. The Board of County Commissioners, after considering the testimony, evidence, documentation, application for approval of a Revised Zoning Ordinance and Preliminary Zoning, the recommendation and findings of the Planning Commission, and all other matters presented to the Board at the public hearing hereinafter referenced, hereby makes the following findings of fact:

A. The Planning Commission of Manatee County acting as the Local Planning Agency held a duly noticed public hearing on December 9, 2010 regarding the proposed amendment to the Zoning Ordinance and Preliminary Site Plan and found the revised Preliminary Site Plan and proposed amended stipulations to be consistent with the requirements of Manatee County’s Comprehensive Plan.

B. The Board of County Commissioners held a duly noticed public hearing on January 11, 2011, regarding the proposed amendments to the Zoning Ordinance and Preliminary Site Plan described below and further considered the information received at the public hearing.

C. The Board of County Commissioners hereby finds that notwithstanding the failure of the Preliminary Site Plan and Master Sign Plan to comply with the requirements of Section 724, Signs, and Section 737, Entranceways, as more specifically described under Section 2, Preliminary Site Plan, of the River Club Park of Commerce Zoning Ordinance, PDMU-99-02(P); the Board finds the public purpose and intent of the above-referenced Land Development Code sections relative to entranceway regulations and signs to be satisfied to an equivalent degree. This finding is based upon the submission by the applicant of a Master Sign Plan as Exhibit X to this ordinance, which includes an architecturally unified and well-planned layout for all signs within the River Club Park of Commerce DRI.
Section 3. The Board of County Commissioners hereby grants Specific Approval from compliance with Section 737, Entranceways and Section 724, Signs, specifically Sections 737.5.3.2, 737.5.3.3, 737.5.3.4.3, 737.5.3.4.5, 724.6.4.1.8.6, 724.4.1.8.6, 724.6.4.1.1, 724.6.4.1.3, 724.6.4.1.8.4, 724.6.4.2.1, 724.6.4.1.8.3, 724.6.4.1.8.3, 724.5.2, and 724.5.4 to enable the Master Sign Plan attached hereto as Exhibit X to be approved. Ordinance No. PDMU-99-01(P) is hereby amended, regarding stipulations as to signs for the residential and non-residential portions of the DRI, as follows:

1. Sign "1" shall not be permitted within any public right-of-way. Prior to submitting for Building Permit a revised location for Sign "1" shall be reviewed and approved by the Planning Department.

2. Any additional signs proposed other than those shown on the approved Master Sign Plan and as otherwise stipulated above (1) and attached as Exhibit X and Y shall require an amendment to the River Club Park of Commerce Development Plan and Zoning Ordinance at an advertised public hearing, unless otherwise permitted in the LDC Section 724.

3. All proposed signage shall be on-site signs only. No off-site advertisement is permitted.

4. No signs shall be permitted within any public rights-of-way.

5. All free-standing signs shall not be installed prior to the construction of the corresponding tenant space.

6. Proposed signs shall not conflict with existing and proposed landscaping to maximum extent possible:
   i. The Building Department shall route all sign permits for River Club Park of Commerce to the Natural Resources Department (NRD) who shall review individual sign permits to assist in determining optimal location for signs:
      a. Within roadway buffers to allow maximize visibility of signs, while minimizing removal of existing trees.
      b. Internal, wall and perimeter signs to ensure placement of signs and to give consideration to existing landscaping to prevent unnecessary pruning or trimming of vegetation to maintain sign visibility.
      c. And sign footers to ensure minimal impacts to root zones.

7. Signs shall be setback a minimum of 5’ from all property lines with the exception of the message center sign (LED Sign), which shall be set back a minimum of 50 feet.

8. All proposed signage along I-75 and S.R. 70 shall be no closer than two hundred feet apart.

9. No signs shall be permitted in floodways, conservations areas, or wetlands, other than those signs permitted elsewhere in the LDC (i.e., conservation signs).

10. Signage shall be placed so it does not conflict with vehicular clear zones, FDOT indices and clear zone requirements shall be met.

11. An informational copy of an agreement enabling Amber Alerts to be placed on the proposed signage shall be submitted to County staff prior to the issuance of a Building Permit for the LED message center sign.

15. No other revisions are approved to the General Development Plan with this request.
SECTION 4. Expressly amended herein, all other prior zoning ordinances (and any site plans approved pursuant thereto) shall remain in full force and effect.

SECTION 5. LEGAL DESCRIPTION.

0.1 INTRODUCTION

The intent of this Master Sign Plan and Criteria Package is to define and establish guidelines which contribute to aesthetically pleasing, harmonious signage. These guidelines define the Design and Construction Standards for the Commercial / Non-Residential components of the Commercial Development to be known as River Club Plaza. Residential Parcels and Private Commercial Parcels not part of River Club Plaza shall have separate Signage Criteria as defined and managed by the Owners / Managers / Associates of such Parcels.

The standards set forth in the Criteria shall be assumed to govern all Signage, however are not be construed as inclusive of all Manatee County ordinance requirements and restrictions. In cases where this Master Sign Plan conflicts with County Ordinance or Regulation, this document shall govern. Individual Tenants are responsible for the submission for approval and confirmation of code compliance with PDMU-99-02(G) (R4).

Exceptions to these standards shall not be permitted and will require approval and a modification to the sign program application PDMU-99-02(G) (R4) by Manatee County.

No sign shall be installed without the required Manatee County permits in accordance with Manatee County Sign Code.

The attachments hereto further define the Criteria for these individual components.
SECTION: 1 GENERAL SIGNAGE DEVELOPMENT CRITERIA
1.1 GENERAL SIGN CONSTRUCTION REQUIREMENTS:

1. All signs and their installation shall comply with all local building and electrical codes.

2. Sign company to be fully licensed with the City and State and shall provide proof of full Workman's Compensation and general liability insurance.

3. All penetrations of building exterior surfaces are to be sealed, waterproof, and in color & finish to match existing exterior.

4. Internal illumination must be 30 milliamp neon, fluorescent tube or LED for storefront elevations. Installed and labeled in accordance with the "National Board of Fire Underwriters and Specifications".

5. Painted surfaces must have an acrylic polyurethane finish or baked-on finish.

6. All sign fabrication work shall be of excellent quality. All logo images and type-styles shall be accurately reproduced. Lettering that approximates type-styles shall not be acceptable.

7. All lighting must match exact specification of the approved working drawings. NO EXPOSED CONDUITS OR RACEWAYS WILL BE ALLOWED unless they are incorporated into the overall sign design.

8. Signs must be made of durable rust-inhibited materials that are appropriate and complimentary to the building.

9. Color coatings shall exactly match the colors specified on the approved plans.

10. Joining of materials (e.g. seams) shall be finished in such a way as to be unnoticeable. Visible welds shall be continuous and ground smooth. Rivets, screws and other fasteners that extend to visible surfaces shall be flush, filled and finished so as to be unnoticeable.

11. Finished surfaces of metal shall be free from canning and warping. All sign finishes shall be free from dust, orange peel, drips and runs and shall have a uniform surface conforming to the highest standards of the industry.

12. In no case shall any manufacturer's label be visible from the street from normal viewing angles.

13. Exposed junction boxes, lamps, tubing or neon crossovers of any type are not permitted.

14. All materials used in signage construction and installation must be new. No used material will be allowed.
1.2 **Signage Specifications:**

The intent of these criteria is to encourage creativity to ensure the individuality of each tenant sign as opposed to similar sign design, construction and colors repeated throughout the project. Signs must be architecturally compatible with the entire center.

The following types of construction will be allowed:

- Acrylic face channel letters
- Through face and halo channel letters
- Reverse pan channel letters
- Skeleton neon behind flat cut out shapes and letters.
- Open Pan channel letters (Only in artistic letter style / font)
- Push through letter and logos in aluminum cabinets
- Flat cut out dimensioned shapes and accents.

Signage on multiple elevations will be allowed, however, the signage allowed will be based upon tenant's frontage, and that amount may be split on other elevations, not duplicated. Stacked copy is permitted so long as the copy fits within the designated sign band without appearing crowded, looking inappropriate or out of scale and character with the adjacent signage.

In order to allow creativity and artistic designs, ascending and descending shapes will be allowed to extend up to 20% beyond the envelope limits provided that the overall allocated square footage is not exceeded and so long as the copy fits within the designated sign band without appearing crowded, looking inappropriate or out of scale and character with the adjacent signage. In other words, these areas have to be calculated individually and added to the "boxed" area for the main sign body. Under no circumstances should the sign exceed the limits of the leased space.

2.5.2 HI-RISE LED DISPLAY PYLON SIGN - DETAIL

- The proposed message center sign will comply with LDC Section 724.6.4.1.10. (See Attached LDC Section 724)
- The allowed message center sign may additionally be utilized for public notices and FDOT roadway information, Amber Alert, construction notices, and traffic control.
- Additionally, Applicant is requesting Specific Approval from LDC Section 724.6.4.1.8.3 (See Attached LDC Section 724) to increase the square footage of the proposed message center sign from the permitted 300 square feet to 400 square feet.
- Additionally applicant is requesting Specific Approval from 724.6.4.1.8.4 (See Attached LDC Section 724), item 9 due to the nature of the location and to allow the attraction of travelling public. Single Tenant (T1) signs and outparcel single tenant (T2) signs have been requested to be larger due to the 50 ft landscape buffers along S.R. 70 and I-75.
- Setback will be a minimum of 15 Feet from 50 Foot Landscape Buffer

2.6.1 P2 - 35' MULTI-TENANT PYLON – INLAND TENANTS – OVERLAY REAR ENTRANCE
2.6.3 P2 - 35' MULTI-TENANT PYLON – DETAIL

- The proposed Multi-Tenant sign meets several of the key items in LDC Section 724.6.4.1.8.4. (See Attached LDC Section 724)
- Additionally, Applicant is requesting Specific Approval from LDC Section 724.6.4.1.8.4 (See Attached LDC Section 724) to increase the square footage of the proposed Multi-Tenant Sign from the permitted 125 square feet to 250 square feet of Displayed Content.
- Signs are set back behind Landscape buffer and are over 100 feet from S.R. 70 and I-75.
- Increased size will increase the traveler’s ability to discern several of the different stores easily and from reduce sight restriction of smaller signage.
- Reduce the traveler’s distraction from the road with easy to read signage.
- Setback will be 15 Feet from Right of way / Property Line or if located at an intersection will be set beyond the 30 foot Sight Triangle.

2.10.2 HIGHWAYSIDE (I-75) TENANT FEATURE SIGNAGE DETAIL

- LDC Section 724.6.4.1.8.4. (See Attached LDC Section 724) This provision appears to allow one sign up to 100 feet in height if ten specific conditions are met. Condition 9 states that, "each premise is limited to 1, on-site freestanding sign exceeding 8 feet in height. All other on-site freestanding signs are limited to ground signs."
- This requirement does not meet the needs of this development. Because there is one owner of all the land fronting onto 1-75, a single freestanding sign simply does not meet the needs for a diverse development of this kind.
- A single panel of less than 4 sq feet cannot be easily read at 70 mph.
- A single Pylon Sign is useful to identify that there is a development adjacent to the interstate.
- The Traveling Public must be able to discern the specific stores located in the development.
- Travelers will not make the commitment to leave the interstate in order to stop and shop.
- Increased size will increase the traveler's ability to discern several of the different stores easily and from reduce sight restriction of smaller signage.
- Reduce the traveler's distraction from the road with easy to read signage.
- This signage will be located in the 50 ft Landscape Buffer, 5 feet from R/W but will not affect any existing Mature Trees or their root systems.
- Signage will not be within the sight triangle of any intersection.

- The proposed Multi-Tenant sign meets several of the key items in LDC Section 724.6.4.1.8.6. (See Attached LDC Section 724)
- Additionally, Applicant is requesting Specific Approval from LDC Section 724.6.4.1.8.6 (See Attached LDC Section 724) to change accordingly for each outparcel see the changes to each item below:
  - Change Item 3 from three grouped in a 25 foot radius to one sign per outparcel.
  - Increase height from Item 4 to 12 feet due to the distance behind the 50 foot landscape buffer on S.R. 70 and the amount of foliage in buffer.
  - Increase overall display content in Item 5 from 10 Sq Feet to 50 Sq ft.
  - Increase the number of extra outparcel signage in Item 7 for all outparcel properties regardless of square footage of each store, from three to six.
- Signs are set back behind Landscape buffer and are over 50 feet from S.R. 70
- Increased size will increase the traveler’s ability to discern several of the different stores easily and from reduce sight restriction of smaller signage.
- Reduce the traveler’s distraction from the road with easy to read signage.
