GLS is here to provide legal assistance with housing matters, including eviction and foreclosure defense, landlord/tenant disputes, issues in mobile home parks, security deposit concerns, and more.

We're here to guide you through every step of the legal process. GLS assists with civil legal matters and accepts cases based on eligibility and the type of legal matter. If your issue falls outside of housing, we may be able to refer you to one of our other departments, including Family Law, Financial Stability, and Immigration.

Check out our website for more information.
