Registering your Account

When you access the Portal for the first time, you'll need to Register your account by clicking on the Register link. The registration process will create a user name (which is your work email address) and password that will be used for future logins. The email address you choose will also be used for system emails/notifications. For security purposes, the system will validate that you own the registered email address by sending an email with a validation link.

Note: If you do not receive the system email within 2 minutes, check your spam or bulk mail folder. If the email appears in that folder, you should right click on the email to indicate "Not Junk" or "Not Spam" to ensure you receive any other system notifications.

Below the tabs are five input fields: "Email Address", "First Name", "Last Name", "Password", and "Re-enter Password". Each field is a simple white rectangle with a thin blue border. At the bottom of the form is a blue button with the text "Continue" in white.

Logging In

Once your account has been registered, you may login (using the same link above) by entering the email address and password used during registration. By checking “Remember Me?”, your web browser will remember your email address for future logins (depending on browser and security settings).

A screenshot of a web form for logging in or registering. The form has two tabs at the top: "Sign In" (which is underlined) and "Register". Below the tabs are two input fields: "Email Address" and "Password". Below the "Password" field is a checkbox labeled "Remember Me?". At the bottom of the form is a blue button labeled "Sign In". Below the button is a link that says "Forgot your Password?". The entire form is set against a white background with a blue border.

Forgot your Password

If you forget your password, click on the link that says “Forgot your Password?” and follow the prompts to create a new password. For security purposes, the system will send an email to the registered email address with a link to reset your password

Changing your Password

To change your password, log into the Application Portal. Click on the  icon on the top right corner of the screen, and select “My Profile”. Then select the Password option on the left side of the screen. For security purposes, you will be required to enter your Old Password before selecting a New Password.

The screenshot shows the 'My Profile' page in the Neighborly Software interface. On the left is a sidebar with two menu items: 'GENERAL' and 'PASSWORD', each preceded by an information icon. The 'PASSWORD' item is currently selected. The main content area is titled 'My Profile' and contains a 'Change Password' form. The form has three input fields labeled 'Old Password', 'New Password', and 'Confirm Password'. Below these fields is a blue 'Update' button.

Signing Out

To sign out (aka log out) of the system, click on the  icon on the top right corner of the screen and select “Sign Out”.
