Opening protection exception. For one- and two-family dwellings constructed under codes other than the *Florida Building Code* (Prior to July 01, 2001) and located in windborne debris regions, the replacement of garage doors and exterior doors with glazing, sliding glass doors, glass patio doors, skylights, and operable and inoperable windows within any 12-month period shall not be required to have opening protection but shall be designed for wind pressures for enclosed buildings, provided the aggregate area of the glazing in the replaced components does not exceed 25 percent of the aggregate area of the glazed openings in the dwelling or dwelling unit.

An electrical subcontractor (sub-contractor form) is required for any electrical work, including electrical wiring diagrams for all new electrical outlets and disconnects.

Contractor Signature (Required): _____ Date: _____
