Request Authorization

• Conduct final phase of study
  – Fully measure all impervious surface area on all non-single family lots
  – Provide accurate determination of the total number of Equivalent Residential Units in unincorporated Manatee County
  – Analyze the cost impacts of areas that have stormwater systems/private roads
Results

• The results of the study will be presented to the BCC before proceeding with drafting implementing ordinances

• Conducting the study does not obligate the BCC to implement the findings
Schedule

• Issue work assignment, May 2019
• Draft results late July 2019
• Report of results to BCC August/September 2019
