Chad Butzow Public Works Director,

Calvary Chapel School's mission is to provide affordable private school education. Therefore, our school operates on a limited budget to stay true to this mission. The limits to this budget have affected technology here at Calvary Chapel School. The laptops we use are the less expensive types (due to budget restrictions), which are, among other things, limited in space and therefore unable to be updated. Teachers continually have issues with their operating systems.

Technologies in the classes are limited to a few tablets for the potential use of 100 students. Even with these limits on technology, general academics have not been affected; our children are scoring approximately 2.5 grades higher than the national norm according to SAT scores. Yet we have lacked the ability to enhance their education through technological means, especially in the upper grades. Our eighth grade graduates often enter public high schools without the technological insight they need to navigate a computer-saturated world. We have been considering how to meet this pressing need and are thankful for any help you can offer us.

Specifically, we could use 10 laptops with Windows 10 capability. These laptops will enable us to start a basic computer skills class for our 8th grade class.

Thank you so much for your consideration of our school in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan Mater". The signature is fluid and cursive, with the first name "Jonathan" and the last name "Mater" clearly distinguishable.
