

Table 3
FDOT Work Program / MPO Transportation Improvement Program
Approximate Calendar of Events

The process starts in Jan of Year 1 to have a program in effect on Jul 1 of Year 2. Therefore each Jan, the end phase of a program's process overlaps the early part of the next. In addition to the overall process, there can be program amendments throughout the year. The work program and TIP must be aligned, so changes to one will prompt changes to the other. The MPO Board considers the TIP and each amendment in an advertised public hearing.

<u>When</u>	<u>Who</u>	<u>What</u>
Year 1 Jan	MPO & FDOT staff	Request any new projects that will require cost estimates
Feb	County staff	Submit potential new projects
Mar	County Commission	Adopt County's project priorities
