Subject: Neighbor Feedback on Extension of Linger Lodge RV Park Campground

Hello Rossina -

In response to the Linger Lodge's Expansion Request, I have the following comments:

1. I respect and appreciate the fact that they have been part of this community for decades.
2. As a neighbor, I would appreciate more respect regarding the LOUD bands that play until 10:00 at night. It use to be 1-2 times a year. Now it is much more frequent.
3. With this campground comes campfires...which can be a bigger issue. There are times that the smoke & smell are so bad that we are forced inside with doors & windows closed.
Campfires are nice for some of the campers, but really bad for the surrounding area.

We do not have an issue with expanding the number of campsites, as long as all infrastructure is in place to satisfy County requirements. BUT, I would strongly request that additional campfire sites are not expanded. We do RV and there are many RV parks that do not allow campfires...and it doesn't seem to be an issue. While Linger Lodge has been here long before all the houses, reality is that they are in the middle of a huge residential area now.

Also, I would request some limitations on the noise with restrictions. It really is so frustrating not to be able to entertain on our lanai due to the smoke smell and loud band noise.

Thanks for including my comments in your response. We are sorry that we cannot attend the meeting.

Best Regards,

Cynthia & Jim Jackson
