Letter: Greetings,

This petition serves to STOP the rezoning at the intersection of CR 675 and SR 70 in Manatee County. The rezoning attempt is to create a commercial area for a convenience store and/or gas station.

This intersection has had a number of serious vehicle accidents and fatalities just in the past year. The number of working vehicles in this area is already substantial, any increase in traffic would increase the potential for more deadly accidents.

Secondly, the potential pollution of the water table is also of great concern, as the residents in the area drink from wells. Contamination from a commercial building in this area would be dangerous to the health and well being of the local residents. A number of studies have shown gas stations pose a genuine threat, contaminating the local groundwater.

Thirdly, the current zoning of agricultural have allowed for a number of endangered animals to be seen not only in the 1.5 acre patch of land, but in the surrounding area. Gopher tortoises currently inhabit this land, and other endangered animals have been seen as well, including bald eagles, bobcats, and panthers. An active commercial building here would further disturb this precious wildlife.

Finally, the light and noise pollution would not only decrease property values, but disrupt local homeowners lifestyle in an extremely negative way. A number of farmers in the area depend on agricultural zoning to maintain their income. This would greatly affect not only Panther Ridge residents, but the surrounding area as well.

Thank you for your consideration on this matter.
