SPECIAL WARRANTY DEED

THIS SPECIAL WARRANTY DEED (this "Deed"), executed as of the ___ day of March, 2018, by Roxanne E. Morgan (the "Grantor"), joined by Brian J. Morgan, her husband, whose mailing address is 1625 Buccaneer Dr., Sarasota, FL 34231, to MI Homes of Sarasota, LLC, a Delaware limited liability company (the "Grantee"), whose mailing address is 8433 Enterprise Circle, Suite 200, Lakewood Ranch, FL 34202.

WITNESSETH:

THAT the Grantor, for and in consideration of the sum of Ten and No/100 Dollars ($10.00) and other valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, and as part of an IRC Section 1031 Tax Deferred Exchange on the part of the Grantor, by these presents does grant, bargain, sell, alien, remise, release, convey and confirm unto the Grantee, all that certain land situate in Manatee County, Florida being more particularly described as follows:

See Exhibit "A" attached hereto and incorporated herein by reference.

TOGETHER WITH, (i) all tenements, hereditaments, appurtenances, and other rights thereto belonging or in anywise appertaining; (ii) all of Grantor's right, title and interest, if any, in and to all air, surface, mineral and subsurface rights, easements and rights of way and ingress and egress rights; (iii) all right, title and interest of Grantor, if any, in and to any public road with every privilege, right, title, interest and estate reversion and remainder thereto belonging or in anywise thereto appertaining; and (iv) all improvements thereon (collectively with the land described in Exhibit "A", the "Property").

TO HAVE AND TO HOLD, the same in fee simple forever.

AND Grantor represents that the Property Is neither the homestead nor residence of Grantor.

SUBJECT to real estate taxes for 2018 and subsequent years, and those restrictions, reservations, covenants, easements and other matters listed on Exhibit "B", provided reference to the same shall not re impose any of them.

AND Grantor hereby covenants with Grantee that Grantor is lawfully seized of the Property in fee simple; that, at the time of the delivery of this Deed, the Property Is free and clear of all liens and encumbrances except taxes for 2018 and subsequent years, and restrictions, reservations, covenants, easements and other matters listed on Exhibit "B"; that Grantor has good right and lawful authority to sell and convey the Property; and that Grantor hereby specially warrants the title to the Property and will defend the same against the lawful claims of all persons claiming by, through and under Grantor but against none other.

IN WITNESS WHEREOF, Grantor has executed this Deed as of the day and year first above written.

SPECIAL WARRANTY DEED

THIS SPECIAL WARRANTY DEED (this "Deed"), executed as of the 7th day of March, 2016, by Roxanne E. Morgan (the "Grantor"), joined by Brian J. Morgan, her husband, whose mailing address is 1825 Buccaneer Dr., Sarasota, FL 34231, to M/I Homes of Sarasota, LLC, a Delaware limited liability company (the "Grantee"), whose mailing address is 8433 Enterprise Circle, Suite 200, Lakewood Ranch, FL 34202.

WITNESSETH:

THAT the Grantor, for and in consideration of the sum of Ten and No/100 Dollars ($10.00) and other valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, by these presents does grant, bargain, sell, alien, remit, release, convey and confirm unto the Grantee, all that certain land situate in Manatee County, Florida being more particularly described as follows:

See Exhibit "A" attached hereto and incorporated herein by reference.

TOGETHER WITH, (i) all tenements, hereditaments, appurtenances, and other rights thereto belonging or in anywise appertaining; (ii) all of Grantor's right, title and interest, if any, in and to all air, surface, mineral and subsurface rights, easements and rights of way and ingress and egress rights; (iii) all right, title and interest of Grantor; if any, in and to any public road with every privilege, right, title, interest and estate reversion and remainder thereto belonging or in anywise thereto appertaining; and (iv) all improvements thereon (collectively with the land described in Exhibit "A", the "Property").

TO HAVE AND TO HOLD, the same in fee simple forever.

SUBJECT to real estate taxes for 2016 and subsequent years, and those restrictions, reservations, covenants, easements and other matters listed on Exhibit "B," provided reference to the same shall not reimpose any of them.

AND Grantor hereby covenants with Grantee that Grantor is lawfully seized of the Property in fee simple; that, at the time of the delivery of this Deed, the Property is free and clear of all liens and encumbrances except taxes for 2016 and subsequent years, and restrictions, reservations, covenants, easements and other matters listed on Exhibit "B"; that Grantor has good right and lawful authority to sell and convey the Property; and that Grantor hereby specially warrants the title to the Property and will defend the same against the lawful claims of all persons claiming by, through and under Grantor but against none other.

IN WITNESS WHEREOF, Grantor has executed this Deed as of the day and year first above written.

Notary Public, State of Florida
AGREEMENT FOR A TEMPORARY SEPTIC TANK PERMIT

WHEREAS, the undersigned (is)(are) the fee title owner(s) of the following-described real property:

See attached

WHEREAS, the undersigned (has)(have) applied to the County of Manatee, Florida for a permit for a temporary septic tank; and,

WHEREAS, Chapter 10B-6.12 (B) of the Florida Administrative Code provides:

"Whenever an approved sanitary sewer is made available (Section 10B.6.05(1)) any individual sewage disposal system, device or equipment shall be abandoned and the sewage wastes from the residence or building discharged to the sanitary sewer through a properly constructed house sewer within ninety (90) days thereafter; and,

WHEREAS, it is considered that a central sewerage system should and will for public health protection become available to the above-described property, and that the use of a septic tank shall be permitted on such property only until such central sewerage system has been constructed and is operating;

NOW, THEREFORE, in consideration for the issuance of a temporary septic tank permit, it is agreed by the undersigned (his)(her) (their) heirs and successors in title, within ninety (90) days after receipt of written notice that central sewage lines are available in a public right-of-way or easement for said property or within one hundred (100) feet of the above-described property, the permit for a temporary septic tank shall terminate and the undersigned shall forthwith connect to said sewage lines and shall thereafter utilize the central sewerage system and shall thereafter cease any further use of any septic tank on said property. The undersigned covenants and agrees to pay immediately prior to such connection to the utility operating said central sewerage system the reasonable prorata cost of the sewage lines which will serve the said property; the undersigned further agrees to pay to the said utility the prescribed monthly service charges then in effect as regulated by Manatee County or other governmental regulatory authority.

The undersigned hereby acknowledges and agrees that the installation of sewage lines to the above-described property of the undersigned constitutes an improvement to such property to the extent of the reasonable prorata cost for such installation.

The covenants herein contained are intended to inure to the benefit of the public and utility herein referred to, which said utility shall be deemed a third party beneficiary hereof and shall also run with the land and shall be binding upon the undersigned and (his)(her)(their) heirs, successors and assigns, and all persons claiming by, through and under (him)(her)(them).

My Commission Expires April 25, 1976
The West half of the following described parcels:

Parcel #1, the SW 1/4 of the SE 1/4 of Section 15, Township 34 South, Range 19 East, excepting the West 330 feet thereof.

Parcel #2, Beginning at a stake in the center of Manatee River approximately 146 feet south of the NW corner of the NW 1/4 of the SE 1/4 of Sect.15, Tp. 34 S., Range 19 E., thence South to a stake at the SW corner of the W 1/4 of SE 1/4 of said Section, Township and Range, thence East 1320 feet, thence North to a stake in center of Manatee River, thence westerly along center of Manatee River to point of beginning, containing 40 acres, more or less, less the west 330 feet thereof.

SUBJECT to life estate in grantors, that is, grantees may not come into the use and enjoyment of said property until the death of the last surviving of the grantors.

Provided, also, that grantee, his heirs and assigns, may not sell, convey, lease or encumber his interest in said land (remainder) as long as either grantor is living.
CONCURRENCY CERTIFICATE OF LEVEL OF SERVICE COMPLIANCE
Public Works Department
Manatee County, Florida

Public facilities must serve land development adequately according to adopted level-of-service standards. This certificate verifies adequacy or exemption and will reserve impacts unless expired. It offers no other assurance, does not approve any development order and does not grant any development rights. It applies only to the identified proposed project and must accompany development order(s) for the project.

Date Issued: October 6, 2017  Expiration Date: October 6, 2020
Certificate Number: CLOS-17-055
Project Name: Morgan/Riverside Preserve
Project File No.: PDR-17-02(Z)(P)
Type of Development Order: Preliminary Site Plan
Location: Sec.: 15  Twp.: 34  Range: 19
DP#: 535510059  Wastewater Treatment Plant: SE  Land Acres: 46.7589
Address: 15051 Upper Manatee River Road, SCT

MUST THE DEVELOPMENT ORDER CONTAIN CONDITIONS AND AGREEMENTS TO ASSURE COMPLIANCE?
YES XX  NO

Prior to final site plan approval, the Engineer/Architect of Record must provide documentation to prove that concurrency has been met relative to drainage design.

APPROVAL:

This development complies with the Comprehensive Plan Concurrency requirements:

Approved by: Public Works Dept., Transportation Planning Division
(Traffic circulation, mass transit, drainage, solid waste, parks, school facilities)
* 126 Single Family Detached Units
** Concurrency for potable water and sanitary sewer may only be applied for at the time of Final Site Plan or Construction Drawings.

Dear Permittee(s):

The Southwest Florida Water Management District (District) has completed its review of the application for Environmental Resource Permit. Based upon a review of the information you have submitted, the District hereby gives notice of its intended approval of the application.

The File of Record associated with this application can be viewed at http://www18.swfwmd.state.fl.us/erp/erp/search/ERPSearch.aspx and is also available for inspection Monday through Friday, except for District holidays, from 8:00 a.m. through 5:00 p.m. at the District's Tampa Service Office, 7601 U.S. Highway 301 North, Tampa, Florida 33637.

If you have any questions or concerns regarding the application or any other information, please contact the Environmental Resource Permit Bureau in the Tampa Service Office.

Sincerely,

Michelle K. Hopkins, P.E.
Bureau Chief
Environmental Resource Permit Bureau
Regulation Division

Dear Permittee(s):

The Southwest Florida Water Management District (District) is in receipt of your application for the Environmental Resource Permit. Based upon a review of the information you submitted, the application is approved.

Please refer to the attached Notice of Rights to determine any legal rights you may have concerning the District's agency action on the permit application described in this letter.

If approved construction plans are part of the permit, construction must be in accordance with these plans. These drawings are available for viewing or downloading through the District's Application and Permit Search Tools located at www.WaterMatters.org/permits.

The District's action in this matter only becomes closed to future legal challenges from members of the public if such persons have been properly notified of the District's action and no person objects to the District's action within the prescribed period of time following the notification. The District does not publish notices of agency action. If you wish to limit the time within which a person who does not receive actual written notice from the District may request an administrative hearing regarding this action, you are strongly encouraged to publish, at your own expense, a notice of agency action in the legal advertisement section of a newspaper of general circulation in the county or counties where the activity will occur. Publishing notice of agency action will close the window for filing a petition for hearing. Legal requirements and instructions for publishing notices of agency action, as well as a noticing form that can be used, are available from the District's website at www.WaterMatters.org/permits/noticing. If you publish notice of agency action, a copy of the affidavit of publication provided by the newspaper should be sent to the District's Tampa Service Office for retention in this permit's File of Record.
If you have any questions or concerns regarding your permit or any other information, please contact the Environmental Resource Permit Bureau in the Tampa Service Office.

Sincerely,

Michelle K. Hopkins, P.E.
Bureau Chief

PERMIT NO. 43043249.000

EXPIRATION DATE: January 30, 2023
PERMIT ISSUE DATE: January 30, 2018

This permit is issued under the provisions of Chapter 373, Florida Statutes, (F.S.), and the Rules contained in Chapter 62-330, Florida Administrative Code, (F.A.C.). The permit authorizes the Permittee to proceed with the construction of a surface water management system in accordance with the information outlined herein and shown by the application, approved drawings, plans, specifications, and other documents, attached hereto and kept on file at the Southwest Florida Water Management District (District). Unless otherwise stated by permit specific condition, permit issuance constitutes certification of compliance with state water quality standards under Section 401 of the Clean Water Act, 33 U.S.C. 1341. All construction, operation and maintenance of the surface water management system authorized by this permit shall occur in compliance with Florida Statutes and Administrative Code and the conditions of this permit.

PROJECT NAME: Riverside Preserve

GRANTED TO: Roxanne Morgan
15051 Upper Manatee River Road
Bradenton, FL 34212

OTHER PERMITTEES: N/A

ABSTRACT: This permit authorizes the construction of a stormwater management system serving a 44.5 acre residential subdivision. Water quality treatment and peak discharge attenuation will be provided by two (2) proposed wet detention ponds. A floodplain compensation pond is also proposed. The site is located at the northeast quadrant of the intersection of Upper Manatee River Road and Williams Road in Manatee County, Florida. Information regarding the stormwater management system, 100-year floodplain, wetlands and/or surface waters is stated below and on the permitted construction drawings for the project.

Water Quality/Quantity Comments:

The project consists of a 126 unit residential subdivision. Water quality treatment and attenuation will be provided by proposed wet detention Ponds 1 and 2. Pond FP Comp-1 is a proposed floodplain compensation pond.

Upper Manatee River Road widening/turn lane improvements are also proposed in conjunction with the project. Consistent with Exempt Activities Rule 62-330.051(4)(c), F.A.C., the Upper Manatee River Road widening/turn lane improvements do not require water quality treatment/attenuation.

Elevations referenced on the construction plans are based on the 1988 North American Geodetic Vertical Datum (NAVD).

A mixing zone is not required.
A variance is not required.

II. 100-Year Floodplain

Floodplain Comments:

The project is located within FEMA Flood Zones AE, A and X. Floodplain compensation Pond FP Comp-1 will provide 17.31 acre-feet of compensation for 9.86 acre-feet of encroachment.

*Depth of change in flood stage (level) over existing receiving water stage resulting from floodplain encroachment caused by a project that claims Minimal Impact type of compensation.

* For impacts that do not require mitigation, their functional loss is not included.

**Wetland/Other Surface Water Comments:**
There are 0.35 acre of wetlands (FLUCCS 640) located within the project area for this ERP. Wetland impacts are not proposed or authorized by this permit. There are 1.71 acres of surface waters, consisting of upland cut ditches (FLUCCS 510) and upland cut ponds (FLUCCS 534), located within the project area. Permanent dredging and filling impacts to 1.15 acres of the project surface waters will occur for construction of the project.

**Mitigation Information**

**Mitigation Comments:**
Mitigation is not required for permanent filling impacts to the upland cut ditches pursuant to Subsection 10.2.2.2 of the ERP Applicant’s Handbook Vol. I. Under this Subsection, mitigation is not required for impacts to drainage ditches that were constructed in uplands and do not provide significant habitat for threatened or endangered species and were not constructed to divert natural stream flow.

Mitigation is not required for permanent dredging and filling impacts to the upland cut ponds pursuant to Subsection 10.2.2.2 of the ERP Applicant’s Handbook Vol. I. Under this Subsection, mitigation is not required for impacts to wholly owned ponds that were constructed in uplands, which are less than one acre in area and do not provide significant habitat for threatened or endangered species.
Specific Conditions

1. If the ownership of the project area covered by the subject permit is divided, with someone other than the Permittee becoming the owner of part of the project area, this permit may be terminated, unless the terms of the permit are modified by the District or the permit is transferred pursuant to Rule 40D-1.6105, F.A.C. In such situations, each land owner shall obtain a permit (which may be a modification of this permit) for the land owned by that person. This condition shall not apply to the division and sale of lots or units in residential subdivisions or condominiums.

2. The Permittee shall retain the design professional registered or licensed in Florida, to conduct on-site observations of construction and assist with the as-built certification requirements of this project. The Permittee shall inform the District in writing of the name, address and phone number of the design professional so employed. This information shall be submitted prior to construction.

3. Wetland buffers shall remain in an undisturbed condition except for approved drainage facility construction/maintenance. No owner of property within the subdivision may perform any work, construction, maintenance, clearing, filling or any other type of activities within the wetlands, wetland buffers, and drainage easements described in the approved permit and recorded plat of the subdivision, unless prior approval is received from the Southwest Florida Water Management District.

4. The following boundaries, as shown on the approved construction drawings, shall be clearly delineated on the site prior to initial clearing or grading activities:
   a. wetland and surface water areas
   b. wetland buffers

   The delineation shall endure throughout the construction period and be readily discernible to construction and District personnel.

5. The following language shall be included as part of the deed restrictions for each lot:

   "No owner of property within the subdivision may construct or maintain any building, residence, or structure, or undertake or perform any activity in the wetlands, buffer areas, and drainage easements described in the approved permit and recorded plat of the subdivision, unless prior approval is received from the Southwest Florida Water Management District."

6. Rights-of-way and easement locations necessary to construct, operate and maintain all facilities, which constitute the permitted stormwater management system, and the locations and limits of all wetlands, wetland buffers, upland buffers for water quality treatment, 100-year floodplain areas and floodplain compensation areas, shall be shown on the final plat recorded in the County Public Records. Documentation of this plat recording shall be submitted to the District with the As-Built Certification and Request for Conversion to Operational Phase Form, and prior to beneficial occupancy or use of the site.

7. Copies of the following documents in final form, as appropriate for the project, shall be submitted to the Regulation Division:
   a. homeowners, property owners, master association or condominium association articles of incorporation, and
   b. declaration of protective covenants, deed restrictions or declaration of condominium

   The Permittee shall submit these documents with the submittal of the Request for Transfer of
Environmental Resource Permit to the Perpetual Operation Entity form.

8. The following language shall be included as part of the deed restrictions for each lot:

"Each property owner within the subdivision at the time of construction of a building, residence, or structure shall comply with the construction plans for the stormwater management system approved and on file with the Southwest Florida Water Management District."

9. The removal of littoral shelf vegetation (including cattails) from wet detention ponds is prohibited unless otherwise approved by the District. Removal includes dredging, the application of herbicide, cutting, and the introduction of grass carp. Any questions regarding authorized activities within the wet detention ponds shall be addressed to the District’s Engineering Manager at the Tampa Service Office.

10. The Permittee shall comply with the following conditions intended to protect manatees from direct project effects:

a. All personnel associated with the project shall be instructed about the presence of manatees and manatee speed zones, and the need to avoid collisions with and injury to manatees. The Permittee shall advise all construction personnel that there are civil and criminal penalties for harming, harassing, or killing manatees which are protected under the Marine Mammal Protection Act, the Endangered Species Act, and the Florida Manatee Sanctuary Act.

b. All vessels associated with the construction project shall operate at "Idle Speed/ No Wake" at all times while in the immediate area and while in water where the draft of the vessel provides less than a 4-foot clearance from the bottom. All vessels will follow routes of deep water whenever possible.

c. Siltation or turbidity barriers shall be made of material in which manatees cannot become entangled, shall be properly secured, and shall be regularly monitored to avoid manatee entanglement or entrapment. Barriers must not impede manatee movement.

d. All on-site project personnel are responsible for observing water-related activities for the presence of manatee(s). All in-water operations, including vessels, must be shutdown if a manatee(s) comes within 50 feet of the operation. Activities will not resume until the manatee(s) has moved beyond the 50-foot radius of the project operation, or until 30 minutes elapses if the manatee(s) has not reappeared within 50 feet of the operation. Animals must not be herded away or harassed into leaving.

e. Any collision with or injury to a manatee shall be reported immediately to the Florida Fish and Wildlife Conservation Commission (FWC) Hotline at 1-888-404-3922. Collision and/or injury should also be reported to the U.S. Fish and Wildlife Service in Jacksonville (1-904-731-3336) for north Florida or Vero Beach (1-772-562-3909) for south Florida and to FWC at ImperiledSpecies@myFWC.com.

f. Temporary signs concerning manatees shall be posted prior to and during all in-water project activities. All signs shall be removed by the Permittee upon completion of the project. Temporary signs that have already been approved for this use by the FWC must be used. One sign which reads Caution: Boaters must be posted. A second sign measuring at least 8 1/2 by 11 " explaining the requirements for "Idle Speed/No Wake" and the shut down of in-water operations must be posted in a location prominently visible to all personnel engaged in water-related activities. These signs can be viewed at MyFWC.com/manatee. Questions concerning these signs can be sent to the email address listed above.

11. All lots abutting wet detention ponds shall have the following language (or similar language as
approved in writing by the District Service Office that services this permit), as part of the deed restrictions:

"The lot owners shall not remove native vegetation (including cattails) that becomes established within the wet detention ponds abutting their property. Removal includes dredging, the application of herbicide, cutting, and the introduction of grass carp. Lot owners shall address any questions regarding authorized activities within the wet detention ponds to SWFWMD."

12. If limestone bedrock is encountered during construction of the stormwater management system, the District must be notified and construction in the affected area shall cease.

13. The Permittee shall notify the District of any sinkhole development in the stormwater management system within 48 hours of discovery and must submit a detailed sinkhole evaluation and repair plan for approval by the District within 30 days of discovery.

14. The Permitted Plan Set for this project includes the set received by the District on January 24, 2018.

15. The operation and maintenance entity shall provide for the inspection of the permitted project after conversion of the permit to the operation and maintenance phase. For systems utilizing retention or wet detention, the inspections shall be performed five (5) years after operation is authorized and every five (5) years thereafter.

The operation and maintenance entity must maintain a record of each inspection, including the date of inspection, the name and contact information of the inspector, whether the system was functioning as designed and permitted, and make such record available upon request of the District.

Within 30 days of any failure of a stormwater management system or deviation from the permit, an inspection report shall be submitted using Form 52-330.311(1), "Operation and Maintenance Inspection Certification" describing the remedial actions taken to resolve the failure or deviation.

16. District staff must be notified in advance of any proposed construction dewatering. If the dewatering activity is likely to result in offsite discharge or sediment transport into wetlands or surface waters, a written dewatering plan must either have been submitted and approved with the permit application or submitted to the District as a permit prior to the dewatering event as a permit modification. A water use permit may be required prior to any use exceeding the thresholds in Chapter 40D-2, F.A.C.

17. Off-site discharges during construction and development shall be made only through the facilities authorized by this permit. Water discharged from the project shall be through structures having a mechanism suitable for regulating upstream stages. Stages may be subject to operating schedules satisfactory to the District.

18. The permittee shall complete construction of all aspects of the stormwater management system, including wetland compensation (grading, mulching, planting), water quality treatment features, and discharge control facilities prior to beneficial occupancy or use of the development being served by this system.

19. The following shall be properly abandoned and/or removed in accordance with the applicable regulations:
a. Any existing wells in the path of construction shall be properly plugged and abandoned by a licensed well contractor.

b. Any existing septic tanks on site shall be abandoned at the beginning of construction.

c. Any existing fuel storage tanks and fuel pumps shall be removed at the beginning of construction.

20. All stormwater management systems shall be operated to conserve water in order to maintain environmental quality and resource protection; to increase the efficiency of transport, application and use; to decrease waste; to minimize unnatural runoff from the property and to minimize dewatering of offsite property.

21. Each phase or independent portion of the permitted system must be completed in accordance with the permitted plans and permit conditions prior to the occupation of the site or operation of site infrastructure located within the area served by that portion or phase of the system. Each phase or independent portion of the system must be completed in accordance with the permitted plans and permit conditions prior to transfer of responsibility for operation and maintenance of that phase or portion of the system to a local government or other responsible entity.

22. This permit is valid only for the specific processes, operations and designs indicated on the approved drawings or exhibits submitted in support of the permit application. Any substantial deviation from the approved drawings, exhibits, specifications or permit conditions, including construction within the total land area but outside the approved project area(s), may constitute grounds for revocation or enforcement action by the District, unless a modification has been applied for and approved. Examples of substantial deviations include excavation of ponds, ditches or sump areas deeper than shown on the approved plans.

23. A “Recorded notice of Environmental Resource Permit,” Form No. 62-330.080(1), shall be recorded (by the District) in the public records of the County(s) where the project is located.

24. Cleared sites such as areas that have undergone surface scraping may attract ground nesting species such as least terns or other imperiled beach-nesting birds (IBNB) during nesting season. IBNB nests have been documented on a variety of disturbed sites, including construction sites (FWC 2013). IBNB deposit their eggs in shallow depressions or scrapes in the substrate, possibly lined with pebbles, grasses, or coquina shells (FWC 2013). Egg-laying for colonial and solitary beach nesting birds usually begins in mid-February. Colonies can range in size from a few breeding pairs to many hundreds (FWC 2013). FWC staff recommends the following measures to reduce nesting potential during construction:

a. Conduct construction activities outside of the breeding season (generally April through August),

b. Clear the site only when ready to build, and

c. Avoid leaving cleared areas with little to no activity for an extended amount of time.

If nesting is observed, we recommend contacting FWC staff to discuss necessary nest buffers and potential permitting alternatives. For additional information, please refer to FWC’s Breeding Bird Protocol for Florida’s Seabirds and Shorebirds located at the following web address: https://public.myrfwc.com/crossdo/shorebirds/PDF-files/BreedingBirdProtocolForFloridaSeabirdsAndShorebirds.pdf.

25. Suitable habitat for Southeastern American kestrels may be found within the proposed project area and a species of kestrel was observed onsite. FWC staff recommends that the permittee conduct kestrel surveys between May and July to avoid confusion with the migratory subspecies of American kestrel (Falco sparverius). Survey guidelines, reporting criteria, and habitat needs for
the Southeastern American kestrel can be found within the Florida Wildlife Conservation Guide (FWCG) at the following website: http://fwg.myfwc.com/docs/American_Kestrel_Technical_Report.pdf. If surveys encounter active nest cavities, FWC recommends avoiding project activities within 150 meters of the nest tree during the breeding season (mid-March to mid-June). If nesting is discovered after construction has begun or if maintaining the recommended buffer is not possible, FWC recommends that the applicant contact FWC staff (Jason.Wagman@MyFWC.com) to discuss potential permitting needs. In areas of suitable kestrel habitat, we recommend retaining snags whenever possible.

**GENERAL CONDITIONS**

1. The general conditions attached hereto as Exhibit "A" are hereby incorporated into this permit by reference and the Permittee shall comply with them.

   Michelle K. Hopkins, P.E.

   ______________________________
   Authorized Signature
EXHIBIT A

GENERAL CONDITIONS:

1 The following general conditions are binding on all individual permits issued under this chapter, except where the conditions are not applicable to the authorized activity, or where the conditions must be modified to accommodate, project-specific conditions.

a. All activities shall be implemented following the plans, specifications and performance criteria approved by this permit. Any deviations must be authorized in a permit modification in accordance with Rule 62-330.315, F.A.C., or the permit may be revoked and the permittee may be subject to enforcement action.

b. A complete copy of this permit shall be kept at the work site of the permitted activity during the construction phase, and shall be available for review at the work site upon request by the Agency staff. The permittee shall require the contractor to review the complete permit prior to beginning construction.

c. Activities shall be conducted in a manner that does not cause or contribute to violations of state water quality standards. Performance-based erosion and sediment control best management practices shall be installed immediately prior to, and be maintained during and after construction as needed, to prevent adverse impacts to the water resources and adjacent lands. Such practices shall be in accordance with the State of Florida Erosion and Sediment Control Designer and Reviewer Manual (Florida Department of Environmental Protection and Florida Department of Transportation June 2007), and the Florida Stormwater Erosion and Sedimentation Control Inspector’s Manual (Florida Department of Environmental Protection, Nonpoint Source Management Section, Tallahassee, Florida, July 2008), which are both incorporated by reference in subparagraph 62-330.050(8)(b)5, F.A.C., unless a project-specific erosion and sediment control plan is approved or other water quality control measures are required as part of the permit.

d. At least 48 hours prior to beginning the authorized activities, the permittee shall submit to the Agency a fully executed Form 62-330.350(1), “Construction Commencement Notice,”[effective date], incorporated by reference herein (<http://www.flrules.org/Gateway/reference.asp?No=Ref-02505> ), indicating the expected start and completion dates. A copy of this form may be obtained from the Agency, as described in subsection 62-330.010(5), F.A.C. If available, an Agency website that fulfills this notification requirement may be used in lieu of the form.

e. Unless the permit is transferred under Rule 62-330.340, F.A.C., or transferred to an operating entity under Rule 62-330.310, F.A.C., the permittee is liable to comply with the plans, terms and conditions of the permit for the life of the project or activity.

f. Within 30 days after completing construction of the entire project, or any independent portion of the project, the permittee shall provide the following to the Agency, as applicable:

1. For an individual, private single-family residential dwelling unit, duplex, triplex, or quadruplex - “Construction Completion and Inspection Certification for Activities Associated with a Private Single-Family Dwelling Unit” [Form 62-330.310(3)]; or

2. For all other activities - “As-Built Certification and Request for Conversion to Operational Phase” [Form 62-330.310(1)].

3. If available, an Agency website that fulfills this certification requirement may be used in lieu of the form.

g. If the final operation and maintenance entity is a third party:

1. Prior to sales of any lot or unit served by the activity and within one year of permit issuance, or within 30 days of as-built certification, whichever comes first, the permittee shall submit, as applicable, a copy of the operation and maintenance documents (see sections 12.3 thru 12.3.3 of Volume I) as filed with the Department of State, Division of Corporations and a copy of any easement, plat, or deed restriction
needed to operate or maintain the project, as recorded with the Clerk of the Court in the County in which the activity is located.

2. Within 30 days of submittal of the as-built certification, the permittee shall submit "Request for Transfer of Environmental Resource Permit to the Perpetual Operation Entity" (Form 62-330.310(2)) to transfer the permit to the operation and maintenance entity, along with the documentation requested in the form. If available, an Agency website that fulfills this transfer requirement may be used in lieu of the form.

h. The permittee shall notify the Agency in writing of changes required by any other regulatory agency that require changes to the permitted activity, and any required modification of this permit must be obtained prior to implementing the changes.

i. This permit does not:

1. Convey to the permittee any property rights or privileges, or any other rights or privileges other than those specified herein or in Chapter 62-330, F.A.C.;

2. Convey to the permittee or create in the permittee any interest in real property;

3. Relieve the permittee from the need to obtain and comply with any other required federal, state, and local authorization, law, rule, or ordinance; or

4. Authorize any entrance upon or work on property that is not owned, held in easement, or controlled by the permittee.

j. Prior to conducting any activities on state-owned submerged lands or other lands of the state, title to which is vested in the Board of Trustees of the Internal Improvement Trust Fund, the permittee must receive all necessary approvals and authorizations under Chapters 253 and 258, F.S. Written authorization that requires formal execution by the Board of Trustees of the Internal Improvement Trust Fund shall not be considered received until it has been fully executed.

k. The permittee shall hold and save the Agency harmless from any and all damages, claims, or liabilities that may arise by reason of the construction, alteration, operation, maintenance, removal, abandonment or use of any project authorized by the permit.

l. The permittee shall notify the Agency in writing:

1. Immediately if any previously submitted information is discovered to be inaccurate; and

2. Within 30 days of any conveyance or division of ownership or control of the property or the system, other than conveyance via a long-term lease, and the new owner shall request transfer of the permit in accordance with Rule 62-330.340, F.A.C. This does not apply to the sale of lots or units in residential or commercial subdivisions or condominiums where the stormwater management system has been completed and converted to the operation phase.

m. Upon reasonable notice to the permittee, Agency staff with proper identification shall have permission to enter, inspect, sample and test the project or activities to ensure conformity with the plans and specifications authorized in the permit.

n. If any prehistoric or historic artifacts, such as pottery or ceramics, stone tools or metal implements, dugout canoes, or any other physical remains that could be associated with Native American cultures, or early colonial or American settlement are encountered at any time within the project site area, work involving subsurface disturbance in the immediate vicinity of such discoveries shall cease. The permittee or other designee shall contact the Florida Department of State, Division of Historical Resources, Compliance and Review Section, at (850) 245-6333 or (800) 847-7278, as well as the appropriate permitting agency office. Such subsurface work shall not resume without verbal or written authorization from the Division of Historical Resources. If unmarked human remains are encountered, all work shall stop immediately and notification
shall be provided in accordance with Section 872.05, F.S. (2012).

o. Any delineation of the extent of a wetland or other surface water submitted as part of the permit application, including plans or other supporting documentation, shall not be considered binding unless a specific condition of this permit or a formal determination under Rule 62-330.201, F.A.C., provides otherwise.

p. The permittee shall provide routine maintenance of all components of the stormwater management system to remove trapped sediments and debris. Removed materials shall be disposed of in a landfill or other uplands in a manner that does not require a permit under Chapter 62-330, F.A.C., or cause violations of state water quality standards.

q. This permit is issued based on the applicant's submitted information that reasonably demonstrates that adverse water resource-related impacts will not be caused by the completed permit activity. If any adverse impacts result, the Agency will require the permittee to eliminate the cause, obtain any necessary permit modification, and take any necessary corrective actions to resolve the adverse impacts.

r. A Recorded Notice of Environmental Resource Permit may be recorded in the county public records in accordance with Rule 62-330.090(7), F.A.C. Such notice is not an encumbrance upon the property.

2. In addition to those general conditions in subsection (1) above, the Agency shall impose any additional project-specific special conditions necessary to assure the permitted activities will not be harmful to the water resources, as set forth in Rules 62-330.301 and 62-330.302, F.A.C. Volumes I and II, as applicable, and the rules incorporated by reference in this chapter.

THIS NOTICE SHOULD BE CONSPICUOUSLY DISPLAYED AT THE SITE OF THE WORK
Notice of Rights

ADMINISTRATIVE HEARING

1. You or any person whose substantial interests are or may be affected by the District’s intended or proposed action may request an administrative hearing on that action by filing a written petition in accordance with Sections 120.569 and 120.57, Florida Statutes (F.S.), Uniform Rules of Procedure Chapter 28-106, Florida Administrative Code (F.A.C.) and District Rule 40D-1.1010, F.A.C. Unless otherwise provided by law, a petition for administrative hearing must be filed with (received by) the District within 21 days of receipt of written notice of agency action. "Written notice" means either actual written notice, or newspaper publication of notice, that the District has taken or intends to take agency action. "Receipt of written notice" is deemed to be the fifth day after the date on which actual notice is deposited in the United States mail, if notice is mailed to you, or the date that actual notice is issued, if sent to you by electronic mail or delivered to you, or the date that notice is published in a newspaper, for those persons to whom the District does not provide actual notice.

2. Pursuant to Subsection 373.427(2)(c), F.S., for notices of intended or proposed agency action on a consolidated application for an environmental resource permit and use of state-owned submerged lands concurrently reviewed by the District, a petition for administrative hearing must be filed with (received by) the District within 14 days of receipt of written notice.

3. Pursuant to Rule 62-532.430, F.A.C., for notices of intent to deny a well construction permit, a petition for administrative hearing must be filed with (received by) the District within 30 days of receipt of written notice of intent to deny.

4. Any person who receives written notice of an agency decision and who fails to file a written request for a hearing within 21 days of receipt or other period as required by law waives the right to request a hearing on such matters.

5. Mediation pursuant to Section 120.573, F.S., to settle an administrative dispute regarding District intended or proposed action is not available prior to the filing of a petition for hearing.

6. A request or petition for administrative hearing must comply with the requirements set forth in Chapter 28-106, F.A.C. A request or petition for a hearing must: (1) explain how the substantial interests of each person requesting the hearing will be affected by the District’s intended action or proposed action, (2) state all material facts disputed by the person requesting the hearing or state that there are no material facts in dispute, and (3) otherwise comply with Rules 28-106.201 and 28-106.301, F.A.C. Chapter 28-106, F.A.C. can be viewed at www.flrules.org or at the District’s website at www.WaterMatters.org/permits/rules.

7. A petition for administrative hearing is deemed filed upon receipt of the complete petition by the District Agency Clerk at the District’s Tampa Service Office during normal business hours, which are 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding District holidays. Filings with the District Agency Clerk may be made by mail, hand-delivery or facsimile transfer (fax). The District does not accept petitions for administrative hearing by electronic mail. Mailed filings must be addressed to, and hand-delivered filings must be delivered to, the Agency Clerk, Southwest Florida Water Management District, 7601 Highway 301 North, Tampa, FL 33637-6759. Faxed filings must be transmitted to the District Agency Clerk at (813) 367-9776. Any petition not received during normal business hours shall be filed as of 8:00 a.m. on the next business day. The District’s acceptance of faxed petitions for filing is subject to certain conditions set forth in the District’s Statement of Agency Organization and Operation, available for viewing at www.WaterMatters.org/about.
JUDICIAL REVIEW

1. Pursuant to Sections 120.60(3) and 120.68, F.S., a party who is adversely affected by District action may seek judicial review of the District's action. Judicial review shall be sought in the Fifth District Court of Appeal or in the appellate district where a party resides or as otherwise provided by law.

2. All proceedings shall be instituted by filing an original notice of appeal with the District Agency Clerk within 30 days after the rendition of the order being appealed, and a copy of the notice of appeal, accompanied by any filing fees prescribed by law, with the clerk of the court, in accordance with Rules 9.110 and 9.190 of the Florida Rules of Appellate Procedure (Fla. R. App. P.). Pursuant to Fla. R. App. P. 9.020(h), an order is rendered when a signed written order is filed with the clerk of the lower tribunal.
June 13, 2018

ZNS Engineering
Attn: Mr. Jeb C. Mulock, P.E.
201 5th Avenue Drive East
Bradenton, FL 34208

RE: RIVERSIDE PRESERVE, PHASE I – (Private Subdivision)
(PLN1804-0095)
Performance Cost Estimate
Required Private Improvements
Reason – (Earthwork, Roadway, Drainage, Reclaim Water)

Dear Mr. Mulock:

Your cost estimate for the above referenced bond, dated May 22, 2018, for the completion of site improvements to serve the above referenced development, is approved for the appropriate surety.

A Private Improvement Performance bond in the amount of $2,571,867.68, which is 130% of your estimated cost, would be sufficient to assure the County completion of the required private improvements.

If we can be of further assistance, please contact me at (941) 708-7462.

Sincerely,

[Signature]

RE: Required Private Improvements Estimate
Riverside Preserve Phase 1
MEPS 649/DTS 20170510/PDR-17-02/17-S-43(P)/FSP-17-68
ZNS File No. 44299

Dear Mr. Pari:

I hereby certify that the engineering costs outlined herein (attachment) represents our estimate of the cost of required private site work improvements to serve the above referenced development. This cost estimate is based on the contract quantities and costs for this project. This cost estimate has been prepared in order for the appropriate surety to be posted with Manatee County, guaranteeing completion of these improvements, thus enabling record plat processing prior to the completion of said improvements. Please note that estimates for public required infrastructure improvements are being submitted under separate cover.

Upon completion of your review and approval of this completion estimate of $2,571,867.68 please notify our office so that the appropriate surety may be obtained.

Thank you in advance for your cooperation. Please advise if you should have any questions or require additional information.

RE: Riverside Preserve Phase I
PDR-17-02/17-5-43(P)/FSP-17-68 (DTS 20170510) 18-S-23(F) (PLN1804-0095)
Performance Cost Estimate
Required Private Improvements
Reason – (Common Area Landscaping, Irrigation, Exotic Nuisance Species Removal, Conservation Area signage and Wetland Buffer Enhancement)

Dear Kimber:

The cost estimate for the above referenced bond, dated August 30, 2018, for the completion of site improvements to serve the above referenced development (Phase I), is approved for the appropriate surety.

A Private Improvement Performance Security in the amount of $334,115.73 which is 130% of your estimated costs, would be sufficient to assure the County completion of the required landscape, irrigation, nuisance species removal, conservation area signage and wetland buffer enhancement private improvements.

If we can be of further assistance, please contact me at (941) 748-4501, ext. 6847.

Sincerely,

Kathleen Davis

RE: Riverside Preserve - Phase I
PDR-17-02/17-S-43(Y)/FSP-17-68, dts 20170510
ZNS Project No: 94299

Dear Ms. Davis,

The purpose of this letter is to request the approval of a private improvement bond estimate for Manatee County Land Development Code required common area planting, irrigation and wetland buffer improvements to serve Phase I of the above referenced development.

I hereby certify that the landscape costs outlined herein (attachment) represents our estimate of the cost of the planting, irrigation and wetland buffer improvements of the above project.

Upon completion of your review and approval of this bond estimate of $334,115.73, please notify our office so that the appropriate surety may be obtained/adjusted.

Please advise if you should have any questions or require additional information.

Sincerely,

Kimber L. Bereiter, RLA, LBLD, ABD

Atttn: Mr. Jeb C. Mulock, P.E.
201 5th Avenue Drive East
Bradenton, FL 34208

RE: **RIVERSIDE PRESERVE, PHASE I – (Private Subdivision)**
(PLN1804-0095)
Performance Cost Estimate
Required Public Improvements
Reason – (Sewer, Water, Road Widening, Offsite Force Main, Offsite Water Main)

Dear Mr. Mulock:

Your cost estimate for the above referenced bond, dated May 14, 2018, for the completion of site improvements to serve the above referenced development, is approved for the appropriate surety.

A Public Improvement Performance bond in the amount of $1,308,255.39 which is 130% of your estimated cost, would be sufficient to assure the County completion of the required public improvements.

If we can be of further assistance, please contact me at (941) 708-7462.

Sincerely,

Sia Mollanazar, P.E., County Engineer
Deputy Director – Engineering Services

RE: Required Public Improvements Estimate
Riverside Preserve Phase 1
MEPS 649/DTS 20170510/PDR-17-02/17-S-43(P)/FSP-17-68
ZNS File No. 44329

Dear Mr. Pari:

I hereby certify that the engineering costs outlined herein (attachment) represents our estimate of the cost of required public site work improvements to serve the above referenced development. This cost estimate is based on the contract quantities and costs for this project. This cost estimate has been prepared in order for the appropriate surety to be posted with Manatee County, guaranteeing completion of these improvements, thus enabling record plat processing prior to the completion of said improvements.

Upon completion of your review and approval of this completion estimate of $1,308,255.39, please notify our office so that the appropriate surety may be obtained.

Thank you in advance for your cooperation. Please advise if you should have any questions or require additional information.

Sincerely,

[Signature]

RE: RIVERSIDE PRESERVE
(PDR-17-02/17-S-43(P)/FSP-17-68) - (DTS #20170510) - (MEPS-649)
Construction Plan Approval - 126 single family residential lots

Dear Mr. Ferdinand:

I have reviewed the above referenced “Construction Drawings” and the plans that are accepted by Storm Water Engineering, Traffic Engineering, Utility Engineering and Environmental Planning Department, which are hereby approved by Growth Management Engineering for construction. I am returning two (2) sets of plans marked "Approved" for your use.

These plans consist of the following sheets:

</table>
CONSTRUCTION IS NOT AUTHORIZED WITH THIS APPROVAL. Two separate inspections SHALL BE required after your receipt of this Approval Letter, and as appropriate, the FSP Sign-Off Letter AND your receipt of the STAMPED Construction Drawings and Signed FSP’s. The first inspection shall occur BEFORE the start of ANY land clearing or construction activities:

A total of three separate inspections are required, two separate inspections by ERS staff are required prior to authorization of construction and/or land clearing activities and a final site inspection for removal of Erosion and Sediment Control (ESC) devices:

1. You are authorized to stake erosion and sediment control (ESC) device locations. After staking ESC measures, ERS staff must be contacted to inspect the staked locations.

2. After the installation of ESC devices has been completed, a second inspection is required to ensure adequacy.

Per Section 355.3 MLDC the applicant shall schedule an on-site meeting with staff from the Building and Development Services Department (ERS) and the Public Works Department, as well as the engineer of record and the contractor. Final approval of the ESCP and authorization of construction will be granted only after an on-site meeting has been conducted. The second inspection can be incorporated into the onsite meeting required by MCLDC Section 355.3.

3. After construction is complete, a third inspection is required to inspect that the area has been stabilized and all ESC devices have been removed from the project site.

For inspection(s) contact Brittany Serafin at Brittany.Serafin@mymanatee.org (941) 748-4501 ext. 6204

Note: Approval of erosion control measures by Manatee County staff other than the Environmental Review Section does not constitute approval for construction to begin.

One copy of this approval letter and "Approved Construction Drawings" shall be located in a conspicuous place on the property as required by Section 722.3.3.1 of the Land Development Code.

Contact Ken LaBarr, Infrastructure Inspections Division Manager prior to the start of construction (941) 708-7450, Ext 7323 or email kenneth.labarr@mymanatee.org

Pursuant to Section 801.3.W of the LDC, sediment and erosion control measures are required for the development in order to control and minimize damage to downstream and adjacent property, the conveyance system, and to preserve water quality. No grading, and or clearing, except brush removal for surveying, or filling shall be commenced until all erosion and sedimentation measures have been applied to all the disturbed areas and specifically around any water bodies, watercourses, or wetlands.

Any offSite improvements within the Manatee County Right-Of-Way (ROW), if required, and as depicted on the approved Construction Plans and Final Site Plan, as applicable, shall require a "Temporary Traffic Control Plan" (TTCP) based on the minimum requirements provided in the Manual
Of Uniform Traffic Control Devices (MUTCD) and/or Manatee County Transportation Standard Detail 406.0 (Road/Lane Closure Procedures). The TTCP shall be submitted to Mr. Kenneth LaBarr, Infrastructure Inspections Division Manager prior to the start of said construction. Contact Mr. LaBarr at (941) 708-7450, Ext 7323 for specific requirements.

In accordance with Resolution R-16-117, establishing fees for “Land Development and Construction” permit fees, effective December 1, 2016 a “Construction Drawing” (CD) review fee sum of $8,560.00 (Pd. 10/02/2017); and Resolution R-16-117, establishing fees for “Private Infrastructure Inspection” (PII), effective December 1, 2016, sum of $18,976.00 (for 126 Lots) effective December 1, 2016, shall be paid prior to the associated “C.O.” or “Final Plat” approval.

POST CONSTRUCTION REQUIREMENTS

A. UTILITIES: WATER AND WASTEWATER SYSTEMS:
Requirements for submittal of water and wastewater system Record Drawings for this project shall be as described in the March 15, 2017 utility review acceptance letter from Mr. Tom Ballenger, P.E., Manatee County Utilities Project Engineer II to Mr. Michael Ferdinand, P.E., ZNS Engineering.

B. DRAINAGE, PAVING AND GRADING:
Requirements for submittal of drainage paving and grading Record Drawings shall be as described in the Manatee County Transportation Department Highway, Traffic & Stormwater Standards, 2007, Index #800.0 (As-Built Requirements).

RECORD DRAWINGS:

1. See Public Works Transportation Standards Section 3.10 DRAINAGE, PAVING and GRADING RECORD DRAWINGS for instructions and submittal procedures. To assist in expediting the “Paving, Grading and Drainage” “Record Drawing” FINAL Submittal and “Final Acceptance Letter”, please provide two (2) sets of As-Built plans; one (1) set of As-Built Mylars; and one (1) CD Rom; directly to John Pari, P.E. Public Works Stormwater Engineering Section. Contact: info: john.pari@mymantee.org or (941) 708-450 ext. 7610.

2. See Public Works Utility Standards Section 1.14 RECORD DRAWINGS for instructions and submittal procedures. To assist in expediting the “Utility” “Record Drawing” for FINAL Submittal and “Final Acceptance Letter”, please provide two (2) sets of As-Built plans; one (1) set of As-Built Mylars; and one (1) CD Rom; directly to Paul Hull, Public Works Growth Management Engineering Section. Contact info: paul.hull@mymantee.org or (941) 708-450 ext. 7230.

If we can be of further assistance, please contact me at 708-7450, Ext. #7337.

Sincerely,

Re: Riverside Preserve Plat
ZNS Project No.: 44299

Dear Case Manager:

Per your request, this letter will certify that the following items are not a requirement of this Plat.

- There is no mortgage joinder.
- There are no private improvements in the public right of way (paver brick, right of way islands, etc.)
- The POMD/BOS will be executed as a part of the Defect Turnover
- There are no off-site easements
- Infrastructure improvements will be bonded

We trust the above satisfies your requirements for Plat submittal. If you have any further questions, please contact us.

Sincerely,

ZNS Engineering, L.C.
