Manatee County Board of County Commissioners  
1112 Manatee Avenue West  
Bradenton,Florida 34205

RE: Tonya Byerley & Paul Couch  
10401 Erie Road  
Parrish,Florida 34219

Good Morning all,Last time I was here Parrish Lakes Development was approved even with the flooding problem I have because of developments putting more water in Canals.Commissioner Carol Whitmore convined other commissions that county should look into purchaing nearby property that School Board owns to use strictly for stormwater retention.I like the road coming off Harrison Ranch Blvd. My concern is the new bridge that will need to be put over Canel. I have a bottleneck from ditch runing wrong way and going under powerlines then back other way to railroad bridge that makes my property the county retention pond now. sometimes three time a year or after three inches of rain. Sia told my husband last year that the ditch was going to be removed and Priscilla Trace told us when she took office it was in works with road improvements because of new school per Sia.It has be a long two year and nothing has happened other then school coming along great! So for my property to continue to flood and with another bridge for debris to hold water back is horrible for us and our horse who has to be stalled when his home floods.I'm asking you to fix whats wrong and make Canal improvements before building more roads all it took was one road for Erie Ranchetts for our property to start flooding.

Thank you,  
Tonya Byerley
